COURSES

Data Analytics Immersion
Career Foundry, Apr 2025 - Present

PROFILE

Data Analyst with over 10 years of background in Engineering and Management, developed a sharp eye to detail while keeping a bird's-eye view on business goals. Skilled in extracting from data the key metrics that can effectively **contribute to the decision-making** process and **improve business results**

WORK EXPERIENCE

ENG. MANAGER / C&I ENGINEER @ Ferrostaal GmbH

February 2018 - October 2019 in Geisenheim - Germany - Eng. Manager

- Coordinated a team of engineers in a procurement contract
- Prepared tender documentation, performed the technical review and followed-up the fabrication of the selected suppliers
- Ensured to the final client a delivery on time, budget, and in full compliance with all the technical and contractual requirements

June 2015 - December 2015 in Skikda, Algeria - Commissioning Eng.

- Lead the commissioning and start-up tasks in the area of expertise
- Accelerated the project execution in about one month, helping to mitigate the penalties for delays in construction

September 2013 - May 2015 in Uralsk, Kazakhstan - C&I Engineer

- Performed the technical management of a \$15M supply package including Fire & Gas Detection and Fire Fighting Equipment
- Ensured compliance of all equipment with the specification and applicable local and international standards

C&I ENGINEER @ Technoedif Engenharia

March 2012 - May 2015 in Lisbon, Portugal

- Acted as lead engineer for "Berrahal and Skikda - LPG and MP Pumping Stations" project
- Helped to save a claim worth over \$100k with a sharp eye detailed technical review.

PRODUCT DEVELOPMENT ENGINEER @ Egitron

October 2009 - February 2012 in Mozelos, Portugal

- Worked for a wide range of industries like Cork, Glass or even Renewable Energy
- Contributed decisively to the development of 3 final products to the company's portfolio

EDUCATION

Master in Electrical and Computer Engineering / *September, 2009*
Faculty of Engineering of University of Porto
